WORK EXPERIENCE

Elementary Educator

Hutto ISD

📅 October 2020 - August 2022

📍 Hutto, TX

- Implemented grade-level math curriculum leading to the highest testing score average three times consecutively within the school district.
- Built rapport with 80+ students and provided personalized feedback and instruction to ensure learning outcomes were achieved.
- Diversified instructional methods and curriculum materials to cater to students' varying needs and interests.
- Managed systems of data tracking for assessments, assignments, and attendance for 80+ students.

Web Design Internship

Imagine Art

📅 June 2020 - September 2020

📍 Remote (Austin, TX)

- Designed company website using the Squarespace platform and implemented custom JavaScript/CSS to create a customized user experience.
- Enhanced the visual appeal of the website by redesigning the company logo and creating custom graphics using Canva.
- Acted as a liaison among multiple divisions within the organization to ensure all parties were satisfied with the website design and functionality.

Registered Behavior Technician

Action Behavior Centers

📅 September 2019 - March 2020

📍 Austin, TX

- Utilized positive reinforcement techniques to increase independence and social interaction for clients on the Autism Spectrum.
- Collected data on client behaviors and conducted trials for program targets such as discrimination tasks and verbal communication.
- Collaborated with team members to formulate future treatment programs using documented data and ABA best practices.

STEM Instructor

Slinger Independent School District

📅 May 2019 - September 2019

📍 Slinger, WI

- Developed a hands-on STEM curriculum aligned with Common Core Standards for grades 5-8, including a focus on project-based learning.
- Facilitated classroom discussions by using prompting questions before, during, and after experiments to encourage high-order thinking skills and collaboration.
- Utilized a variety of instructional materials, such as visual aids, real-world examples, and practice problems to aid learning.

CAREER OBJECTIVE

Analytical and creative individual who thrives on solving problems, out-of-the-box thinking, and getting the details right. Seeking the opportunity to leverage my skills in design and development to create functional and clean websites.
